User Manual
Dutch Oven Table

USER MANUAL

Thank you for purchasing the Petromax Dutch Oven Table! With a Dutch Oven Table, you can cook outdoors on a grand scale: The table offers you a safe stand and cooking surface for cast-iron Dutch Oven, skillets, and more, at a comfortable work height of 34.25 in. Thanks to the generously sized windscreen, you can even save energy and charcoal when cooking outside. The Dutch Oven Table can also be used without feet.

IMPORTANT INSTRUCTIONS

Please read this user manual carefully before using the Petromax Dutch Oven Table for the first time. Follow the safety instructions. If another person is using the product, please provide this user manual.

PRODUCT DESCRIPTION

The Table fe90 with a work surface of 45 x 90 cm (17.7 x 35.4 in) is suitable for up to 3 or more Dutch Ovens (depending on the size). The table offers a comfortable work height of 87 cm (34.25 in). The windscreen, which is to be attached with wing bolts, makes the charcoal and briquettes burn longer at a high temperature, and you will save energy when cooking and baking. The hangers on the front and the sides provide hanging options for bbq and coal tongs, paper towels, or barbecue gloves. The massive feet (height 7.5 in) are very sturdy: the fe90 can hold up to 100 kg (220 lb) (respective maximum surface loading). The table can also be used without feet (height 7.5 in) and is thus perfectly suited for stacking Dutch Ovens.

SAFETY INSTRUCTIONS

- Only use the Dutch Oven Table outdoors. Do not use indoors as a cooking area. Fire hazard and danger of asphyxiation. Always comply with fire safety regulations.
- **Caution! Risk of burning!** The table can become extremely hot when used with briquettes and charcoal.
- Always place the table on a solid, even, and steady surface. On a soft ground, the feet can sink, and the table will not stand upright anymore.

- Risk of injury! Avoid rickety structures. Do not stack more than two Dutch Oven on the table. Do not exceed the maximum weight.
- Never leave the table unattended when burning briquettes and charcoal on it. Watch children and animals close to the Table.
- Do not move the Dutch Oven Table when it is in use or hot. Let it cool down entirely after use.
- Wait until the ashes are completely cold before removing them, and dispose of them properly. Never throw hot ashes in the trash!

SCOPE OF DELIVERY

- 1x Dutch Oven Table fe90
- 4x feet
- 4x clamping lever for feet
- 1x windscreen with hinges
- 4x wing bolt for windscreen

MODEL

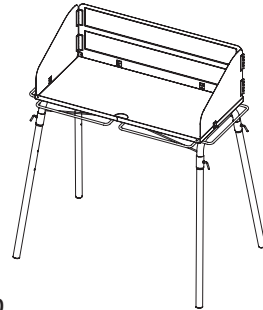

Figure: fe90

SET UP AND CONFIGURATION

1. Put the feet in the device on the table and tighten them with the clamping lever. Now set the table upright.
2. Put the windscreen with the hinges outwards and tighten it with the wing bolts. Due to possible coating on the windings, screwing the wing bolts might be stiff at the first time.

Tip: The table can be assembled and disassembled as often as you like and packed for transport or storage.

INSTRUCTIONS FOR USE WITH FEET

With the feet installed, the table has a comfortable, back-friendly work height. You can easily fit several Dutch Oven, a Loaf Pan or Sandwich- and Waffle Iron side by side and use them comfortably.

INSTRUCTIONS FOR USE WITHOUT FEET

When the feet are not attached, the table is perfect for stacking several Dutch Oven. Choose an even, fireproof, and steady surface such as stone floor or gravel.

CLEANING AND STORING

Thanks to the gap at the front of the work surface, cold ashes can be easily swept out.

Do not leave the table stand unprotected outdoors. Store it in an enclosed area or cover it well. Otherwise it will start to rust.

Very high temperature can lead to a flaking of the coating of the cooking surface. This is not a defect.

WARRANTY

Under proper use, a warranty period of two years will apply to your Petromax Dutch Oven Table from the date of purchase. This does not apply to normal wear and tear or misuse. If you cannot use your product due to a defect in material or workmanship, you are entitled to a warranty repair. Contact your dealer for that purpose.
